

# FAIRFAX COUNTY, VIRGINIA

## Alternative Office Space

Entrepreneurs, small businesses and independent workers have a greater range of workspace choices in Fairfax County today than ever before. Co-working office spaces, incubators and accelerators, virtual office spaces and traditional executive office suites all offer affordable, flexible lease terms and amenities, along with professional addresses in many of the county's business districts.

Daily and monthly rental and lease rates typically include IT infrastructure, conference rooms and concierge services. Incubators and accelerators nurture young companies by providing additional services that include advice on financing, management and product development. Because there are often many businesses within alternative office space arrangements, tenants have ample opportunities for networking with other entrepreneurs and business people.
